This substitute bill requires PEHP to provide technical assistance to the State Auditor who is tasked with developing a cost comparison tool using cost information from the All Payer Claims Database. PEHP will assign one analyst for one day per week for six months to the State Auditors Office to provide technical assistance under the bill. We estimate the cost of that effort to be about \$15,000, but believe it can be handled within existing budgets because it would not require the hiring of additional personnel.
